Beale receives new Global Hawk RPA

By Senior Airman
Christine Collier
9th RW Public Affairs

Beale's second RQ-4 Global Hawk Remotely Piloted Aircraft arrived here Nov. 3 at 4:51 p.m., landing directly on the runway center line.

The aircraft, a Block 10 model flown in from Edwards Air Force Base, was landed by Lt. Col. Christopher Jella, 18th Reconnaissance Squadron commander.

"I had to ensure all systems were up to training standards to include appropriate technical orders and a solid training program, which we have been building for the last year," said Colonel Jella. "It

was a huge relief when all the systems checked out and the Global Hawk finally landed."

The Global Hawk, designed and manufactured by Northrop-Grumman, provides Air Force and joint battlefield commanders near-real-time, high-resolution, intelligence, surveillance and reconnaissance imagery to fight the Global War on Terror.

The first Global Hawk, which arrived in October of 2004, has been used as a maintenance trainer for the past two years. It, along with the newly arrived aircraft, will be used to support Global Hawk flight training.

"Last week, we did not

Beale, community combat underage drinking crimes

By Senior Airman Christine Collier
9th RW Public Affairs

Beale Air Force Base has been selected to receive a grant from the Department of Justice which will allow the base and the state to share \$900,000 over the next three years to reduce underage drinking by Airmen.

The award of funds was made through the Enforcing Underage Drinking Laws Discretionary Program, which focuses on reducing the availability and consumption of alcoholic beverages by underage service personnel. EUDL is the only federal initiative directed exclusively toward preventing

underage drinking.

"To each and every person of age, it is our duty to protect our underage folks from alcohol - not to provide it," said John Nicoletti, local coordinator for the EUDL Discretionary Program. "If you culturally shift that one decision, you will affect the majority of problems facing our young people today. You may, in fact, save a life."

The Alcohol Beverage Control will administer the funds from the grant through the San Diego State University Research Foundation, which will distribute the funds to Mr. Nicoletti. He will create and manage a local coalition of citizens, leaders

George Cloutier
9th RW Public Affairs

As the first rains of winter fall on Beale, drivers are reminded that the ideal driving conditions of summer are gone.

"There is usually a 50 percent increase in car accidents during the first good rainfall of the sea-

son," said Tech Sgt. Jennifer Pratt, 9th Reconnaissance Wing Safety Office ground safety specialist. "Before last week we have not had any significant rain at Beale since May and there are many new drivers who have never driven in these conditions."

Along with rain, Beale drivers also have to be prepared to deal with snow,

OPEN LINE

The Open Line is your direct line to the 9th Reconnaissance Wing commander. The Open Line is used to ask questions, make suggestions, or give thanks for a job well done. The most efficient way to solve an issue is to work through the relevant office and use the chain of command. If you are unable to resolve the issue, or are not satisfied with the response, call the Open Line. If

you would like to receive a response, leave your name and phone number with your message. Open Lines of general interest will be published in the High Flyer; others will be answered by letter, phone or in person.

Success is a journey not a destination

By Lt. Col. Michelle Bishop
9th Medical Operations Squadron
commander

The future of an organization relies heavily on the unit's ability to maintain a highly effective staff that can function well in today's rapidly changing environment.

As leaders, we must find ways to develop our staff while still maintaining job satisfaction and decreasing staff turnover rates.

Now, please do not stop reading because you believe this does not apply because you are not the commander, chief, the officer-in-charge, or the NCO-in-charge. We are all, and must be, leaders in our fervently changing environment.

I believe the application of the coaching process can increase a staff's development which will result in increased job satisfaction and decrease turnover.

Many times, we often think of coaching as related only to athletics. If you grew up playing sports, you understand the multifaceted role of a coach.

Coaching has four main areas of responsibility: instilling fundamentals, building teamwork, evaluating and ad-

justing your staff, and reinforcement and motivation.

Coaching is a process, not a one-time act of teaching a task.

You need to be there to listen and spread enthusiasm and pride.

You must "walk the talk."

Your subordinates and peers are watching all your actions, including the small ones.

Analyze your values and look yourself in the mirror.

Are you doing what you say you are? You must be consistent.

As in any sports your team will all be at different levels of skill.

The first stage of coaching in any environment is to know the individual. To do this you will need to spend time observing your staff directly and indirectly.

You will need to determine what is being done well and what needs improvement. Review the information available to you at your level.

Next, you will need to set goals for their performance. These goals must be developed together. Finally, you will need to provide feedback.

Feedback needs to be specific and descriptive on performance. Feedback is the most critical skill in effective

coaching.

Sounds easy right?

As a successful coach you will need to adjust your approach with each one of your players depending on their needs and the current situation.

While in the role of coach you want to help your people through difficult times while maintaining their momentum and building on small successes. Let your people know and believe they are an integral part of the team. As with a coach in athletics, you are observing their activities, making notes, and offering suggestions for improvement. You are guiding their performance. You can not run out on the field and do their job.

When coaching does not resolve a problem, you must confront the individual. In this situation, you must clearly state alternatives and consequences. This is an area where many fail due to confrontation reluctance. We can not do this step poorly.

Remember the coaching process is not linear and at times you may need to circle back and highlight different areas. The good news is our organization ultimately wins, when you as a leader, coach an individual on his or her journey towards their success. ✈

WHERE IN THE WORLD IS TEAM BEALE?

GRANT from page 1

and key stakeholders in the prevention arena.

"This grant is an exciting opportunity for the base to partner with local communities to decrease underage drinking, both in the community and on base, including civilians, dependants and active-duty servicemembers," said Capt. Courtney Cantrell, Beale EUDL Discretionary Program coordinator.

Local police departments from Yuba City, Wheatland and Marysville will receive part of the grant, and will be working with the 9th Security Forces Squadron on the program. Additionally, Yuba Sutter Friday Night Live will receive funding to implement a media campaign and support staff.

The long-term goals of the program include: reducing driving under the influence incidents and accidents involving Beale Airmen by 50 percent; reducing underage drinking related incidents, crimes and accidents involving Beale Airmen by 60 percent; and reducing the rates of underage drinking in the Beale area youth, particularly Wheatland High School students, by 15 percent per year.

"I think the program compliments the commitment of a better life the Air Force has made to its Airmen," Mr. Nicoletti said. "On one hand, you might say 'if I'm young enough to die for my country, then I'm old enough to drink,' but on the other hand, if you are over 21 and provide alcohol to someone underage and a tragedy occurs, is that taking care of your wingman?"

"If you can help another by preventing underage drinking, isn't it worth doing?" he said. "As for me, yes, I will help."

Other bases and states to receive the grant were Davis-Monthan and Luke Air Force bases in Arizona, Hickam Air Force Base in Hawaii, and Malmstrom Air Force Base in Montana. ✈

GLOBAL HAWK from page 1

have the ability to execute the Launch and Recovery Element flight portion of the training, so required our student pilots to deploy where our only LRE flight training equipment existed," Colonel Jella said. "Now that we have a functioning LRE and aircraft here, our pilots no longer need to deploy to accomplish that portion of their formal training."

The new arrival is the second of seven Block 10 Global Hawks scheduled to be stationed at Beale.

A third aircraft is expected later this winter, to be followed by another Global Hawk in the spring.

Beale will also begin receiving

Block 20 models, which have a larger wingspan, higher maximum payload capacity and longer maximum flight time, beginning in 2009.

"The Air Force's fleet of Global Hawks will eventually reach 54 aircraft," Ted Ross, Northrop-Grumman Beale site manager, said. "The majority of those aircraft will be stationed in forward-deployed locations."

The remainder of the Global Hawk fleet will split between Beale and Grand Forks Air Force Base, N.D., said Mr. Ross.

The new aircraft is scheduled for its first flight from Beale this winter. ✈

Chief's Pick

Tech. Sgt. John Back, 9th Aircraft Maintenance Squadron, receives the Chief's Pick award from Chief Master Sgt. Wayne Smith, 9th Physiological Support Squadron. The Chief's Pick is given in recognition for outstanding dedication, service before self and overall positive impact made on the enlisted corps. (Courtesy photo)

8th AF named as cyberspace command

WASHINGTON—Secretary of the Air Force Michael Wynne announced today that the 8th Air Force is now the service's lead command for cyberspace.

The command's new responsibility is a potential step to becoming an Air Force major command, Wynne said.

The "Mighty Eighth" was made famous during the Combined Bomber Offensive over Europe in World War II. "The mission of Bombers now within the 8th Air Force will be remaining," he said.

"On the horizon, we see a road map to ultimately gravitate Cyberspace Command from Eighth Air Force into a stand-alone major command, on par with Air Combat Command and Space Command," Wynne said.

The move accompanies the service's ever-increasing reliance on operations within the cyberspace domain.

"The capital cost of entry to the cyberspace domain is low. The threat is, that a foe can mass forces to weaken the network that supports our operations," he said.

Wynne noted that the traditional principles of war as taught to young officers apply fully in cyberspace, and he stressed that cyberspace operations can include far more than computer network attack and defense, citing the use of improvised explosive devices in Iraq, terrorist use of Global Positioning Satellites and satellite communications, internet financial transactions by adversaries, radar and navigational jamming, and attacking American servers as just a few examples of operations that involve the cyberspace domain.

"This new way of war is data-dependent. We need to protect our data while detecting adversary data and then deny, disrupt, dissuade or destroy the source of that data or transmission as appropriate," he said.

Led by Lt. Gen. Robert Elder, 8th Air Force will develop the cyberspace force by reaching across all Air Force commands to draw the right people and capabilities. Although the cornerstone of the cyberspace command will be the leading-edge capabilities already resident in 8th AF to include command and control, electronic warfare, net warfare, and surveillance and reconnaissance capabilities.

Wynne called the move "good stewardship" and said it was necessary to ensure the cyberspace domain receives the emphasis required. The 8th Air Force will be responsible for training, organizing and equipping the service for cyberspace operations and managing career planning to grow cyberspace professionals from among the active duty, guard, reserve, and civilian ranks.

"There will be careers and a strong future for the Airmen whose work is in the cyberspace domain. Air Force military and civilian experts are working now forming the career and school paths that will ensure a full career with full opportunities for advancement to the highest ranks of the Air Force," he said.

In December 2005, the Air Force mission statement was amended to include cyberspace as an operational domain along with air and space. The service stood up the Cyberspace Task Force in January, led by military strategist Doctor Lani Kass. The task force, composed of Airmen from across the Air Force, has spent the past ten months gathering data and exploring how the service can be effective in cyberspace.

Recently Air Force leaders tasked the commanders of Air Combat Command and Air Force Space Command to submit a proposal for establishing an operational command for cyberspace.

Town hall questions answered

Below are the replies to questions asked at the Oct. 17 town hall meeting:

Q: Where is the authorized area for Beale's youth to skate board?

A: The authorized area for skateboarding is in the parking lot in front of the ball fields at the Youth Center. Youth must wear personal protective equipment to include helmets, knee and elbow pads. - Maj. Vince Shelton, 9th Services Squadron commander

Q: Are there plans to build a skate park on Beale?

A: Yes, a \$60,000 Skate Park is programmed to be built in Fiscal Year 07 outside the Youth Center. - Major Shelton, 9th SVS

Q: What are the current plans to remedy mold issues in base housing?

A: Mold remediation is being accomplished in association with the Air Force Mold Policy and reviewed by the base mold working group procedures in newer Mountain View and Brookview units.

In the older Capehart units, the course of action depends on the severity of the problem and cost to repair and remediate. With the pending demolition of several hundred housing units in the future, decisions are being made on whether to repair the unit or allow them to remain inactive based on neighborhoods to be retained. - Lt. Col. James Griffin, 9th Civil Engineer Squadron

Q: Can Security Forces place more patrolmen in military family housing to deter vandalism?

A: The 9th Reconnaissance Wing Security Forces Night Flights have increased surveillance in the Base Housing area and question suspi-

cious individuals. - Maj. Franklin Howard, 9th Security Forces Squadron

Q: Over 100 homes on Beale will be restored for occupancy; receiving new HVAC duct work. What size (bedroom-wise) homes will be restored for occupancy?

A: The breakdown is as follows:

Junior NCO with two bedrooms: 17

Junior NCO with three bedrooms: 43

Junior NCO with four bedrooms: 10

Senior NCO with three bedrooms: 27

Senior NCO with four bedrooms: 2

Company grade officers with three bedrooms: 8

Company grade officers with four bedrooms: 2

Field Grade officers with four bedrooms: 8

A total of 120 units will get new ductwork placed in the attic space of the houses. There are 17 two-bedroom units, 78 three-bedroom units, and 22 four-bedroom units. Three additional units remain to be identified. - Colonel Griffin, 9th CES

Q: Can we enforce illegal parking in base housing for those parking on the wrong side of the roadway?

A: The 9th SFS does enforce this rule and it is briefed by housing personnel and annotated in the housing pamphlet. - Major Howard, 9th SFS

Q: Who do I need to call to report inoperative or malfunctioning street lights in base housing?

A: You can call the 9th CES Service Call Desk at 634-2604 or 634-2605 and put in a work order.

Calling the Housing Office is another option. Their number is 634-4961 or 634-2796.

They will initiate a work order for one. - Colonel Griffin, 9th CES

Community Briefs

Court martial

During a special court martial Oct. 27 at Beale, Senior Airman Tawna Lambert, 9th Aircraft Maintenance Squadron, was charged with and pled guilty to one specification of Article 112a, Uniform Code of Military Justice, wrongful use of a controlled substance, specifically ecstasy. Airman Lambert was sentenced to a reduction to the grade of E-1, two months confinement, and forfeitures of \$800 pay per month for two months.

Tech. Sgt. Stanley Fielding

Any person or persons having claims for or against the estate of Tech. Sgt. Stanley L. Fielding, 9th Aircraft Maintenance Squadron, Beale Air Force Base, California, should contact the Summary Court Officer, 2nd Lt. Gina H. Ishida, at (530) 634-9139 on or before Dec. 1.

Vehicle decals

As a reminder, 2006 base vehicle decals will expire Dec. 31.

To renew a registration, please provide a current proof of insurance, military identification and a valid state driver's license.

Also, an out-of-state vehicle may need to pass a California emissions test prior to renewal. For more information, call Nicole Lytle at 634-3143.

Veteran's Day parade

The Yuba-Sutter Veteran's Day parade is scheduled for Saturday at 11 a.m. in Marysville. The starting point will be at D Street and 7th Street and will turn left at 2nd Street

ending at C Street and 5th Street.

For more information, call Master Sgt. Merry Montgomery at 634-3306.

Thanksgiving take-out

Recce Point Club is offering a Thanksgiving Day take-out meal for the over-worked mom who wishes to relax this Thanksgiving.

The meal feeds a family of six and includes whole roast turkey or glazed ham, stuffing, cranberry sauce, mashed potatoes and gravy, vegetable medley, corn, rolls and butter, a cheese and cracker tray, and either pumpkin or pecan pie for desert.

The cost is \$45 for members and \$50 for non-members.

Add a New York style cheesecake for \$15 extra.

Orders must be received no later than noon Nov. 21.

For more information, or questions, call the club at 634-4948.

Office closure

The 9th Support Division's Administrative Support Flight will be closed Nov. 24. The following services will not be available: ID Cards/DEERS, Military Personnel Records, Base Records Management, Inbound/Outbound Property, Passenger Travel, Omega Travel, and Awards and Decorations. Normal service will resume Nov. 27. All travelers who will need to pick up tickets or conduct any last minute business with Passenger Travel or Omega will need to complete it on Nov. 22 or contact the Omega 24-hour desk at 800-707-2795. For more information, call 634-5134.

Deadline for submissions

The deadline for submissions to the High Flyer is Friday the week prior to the desired publication date.

Submissions are printed on a space available basis.

Submissions after the deadline will not be published until the following week. News briefs will run for no more than three consecutive weeks. For questions or more information, call 634-8887.

Bundles for Babies

Bundles for Babies is scheduled for Dec. 13 from 5 to 6:30 p.m. at the Airmen and Family Readiness Center.

This free class is open to all ranks and provides tips on prenatal care, financial expectations, and avoiding frauds targeting new parents. Attendees must arrange their own childcare. For more information, call 634-2863.

Office closure

The 9th Support Division Administrative Support Flight will be closed from 11 a.m. to 1 p.m. Thursday.

ID Cards, Awards and Decorations, UPRG, Personal Property Counseling, Passenger Travel, and Base Records Manager services will not be available.

This temporary closure also includes BITC and Omega Travel.

Please plan accordingly. For more information or questions, call Bill Hoerman at 634-5134.

Veteran's Day

The Beale Commissary will be

open for business today. For more information, call the commissary at 634-2422, ext. 0.

Fresh fruit and vegetables

The Foothills chapel in housing provides free fresh fruit and vegetables to all active duty military families every Friday from 11 a.m. to 2 p.m.

A paper or plastic bag is needed to carry items. For more information, call the chapel at 634-4701.

Separating Airmen

Thinking of leaving the Air Force? The key to transition success is knowledge of available services and a firm understanding of how to use them. During pre-separation counseling, Airmen will learn about their benefits and rights, as well as available services. For more information or to schedule an appointment, call the Airman and Family Readiness Center at 634-2863.

Airmen enhancement seminar

An Airmen professional enhancement seminar is scheduled for Tuesday and Wednesday. For more information, call Staff Sgt. Gavin Christiansen at 634-2718.

Breastfeeding support group

A free breast feeding support group is open to all women Mondays at 9:30 a.m. at the Foothills Chapel. For more information, call Julie Mathews at 788-7660.

Wingman training

Wingman training is scheduled
see COMMUNITY, page 6

COMMUNITY from page 5

for Tuesday and Dec. 5 from 8 to 9 a.m. at the Airmen and Family Readiness Center. For more information or to register, call the center at 634-2863.

Airmen's Attic

The Airmen's Attic is still taking donations of items that are in good condition. Specifically there are families in need of washers and dryers. For more information or to donate, call 634-5640 or 788-2993.

To donate large items please call to arrange for a delivery time.

The attic holds an All Ranks Day once a month for Airmen of all ranks.

The attic is open Monday and Wednesday from 10 a.m. to 1 p.m. and Friday from 10 a.m. to 4 p.m.

AWANA

AWANA is held every Tuesday at 6 p.m. at the Foothills chapel in housing. AWANA is available for all children three years of age through sixth grade.

For more information about AWANA or to sign a child up, call the chapel at 634-4701.

BAADD volunteers

Beale Airmen Against Drunk Driving is always looking for new volunteers.

For more information about the program or to volunteer, call Staff Sgt. Jason Sikorski at 634-5945 or speak with your first sergeant.

Beale Thrift Shop

The Beale Thrift Shop is currently taking fall, winter and holiday donations and consignments. Hours of operation are 9:30 a.m. to 1:30 p.m. Tuesdays and Thursdays. Consignments are accepted until 12:30 p.m.

Proceeds from sales go to the Beale Officers' Spouses' Club's charitable fund used for scholarships and community donations.

The thrift shop is located at 6201 B Street in the Omni parking lot across the street from the Commissary.

For more information, call 788-1892.

Volunteers needed

Volunteers are needed at the Retiree Information Desk at the Beale Clinic. For more information, call 634-4997.

Certification programs

The Community College of the Air Force has an Airframe and Power Plant certification program.

Technicians who have cross-trained out of aircraft maintenance AFSCs are eligible for the certification program provided the technician possessed a 7-skill level in the aircraft maintenance AFSC prior to cross-training and has not been out of the aircraft maintenance AFSC for more than two years.

Technicians may enroll in the program and begin training once they have been awarded their 5-skill level. For more information, visit <http://www.maxwell.af.mil/au/ccaf/student.htm>.

Discover

The Education Center now has a computer-based career planning program available for individuals trying to decide on a career path, planning further education or transitioning out of military service. For more information, call Education Center at 634-2525.

NAF openings

The below Non Appropriated Fund positions are available. For more information or questions, call 634-2316 or visit <http://www.bealeservices.com/humanresources>. Cashier, checker, cook, waiter, bartender and food service worker - Recce Point Club.

Information technology specialist, school-age program assistant and cook - Youth Center.

Child development program assistant - Child Development Center.

Food assistant program monitor - Family Child Care.

Custodial worker supervisor - Lodging.

Cashier, checker and custodial worker - Beale Lanes.

BAADD 634-5700

October: Article 15s

The following enlisted personnel were given Article 15's during October:

A 9th Aircraft Maintenance Squadron airman first class received a reduction to airman basic and a reprimand for violating Article 112a - Wrongful Possession of Ecstasy.

A 9th Aircraft Maintenance Squadron airman first class received a reduction to airman basic with reduction below airman Suspended, 60 days restriction, and a reprimand for violating three specifications of Article 134 - General Article: equipping a non emergency vehicle with flashing lights, possessing an altered military ID card, and breaking restriction.

A 9th Maintenance Squadron senior airman received a forfeiture of \$250 pay per month for two months and a reprimand for violating Article 92 - Failure to Obey Order or Regulation: storing pornographic material on a government computer.

A 9th Maintenance Squadron senior airman received a forfeiture of \$250 pay per month for two months, 14 days extra duty, and a reprimand for violating Article 92 - Failure to Obey Order or Regulation: storing pornographic material on a government computer, Article 121- Larceny and Wrongful Appropriation: appropriating a government laptop, and Article 107- False Official Statement.

A 9th Physiological Support Squadron senior airman received a reduction to airman first class and a reprimand for violating Article 134 - General Article: adultery.

A 13th Intelligence Squadron senior airman received a reduction to airman first class, 14 days extra duty, and a reprimand for violating Article 86 - Absence Without Leave.

A 13th Intelligence Squadron airman first class received a reduction to airman, 15 days restriction,

and reprimand for violating Article 92 - Failure to Obey Order or Regulation: sleeping on duty.

A 9th Logistics Readiness Squadron staff sergeant received a reduction to senior airman, 14 days extra duty, and a reprimand for violating Article 86 - Absence Without Leave.

Commanders may suspend all or part of a punishment for up to six months. If the member fails to meet a condition of the suspension, the commander can remove the suspension and impose the punishment. For example, a member is given a suspended reduction to Airman on 1 May 2006. On 1 June 2006, that same member fails to meet a condition of the suspension. The commander can impose the punishment that was suspended and the member is then reduced to Airman effective 1 May 2006, the date of the original action.

This action is called "vacating" the suspension.

NSPS: Q&A

Q: I'm a supervisor of non-bargaining unit general schedule employees and recently completed National Security Personnel System training in Performance Management.

What is the next step that I should take to prepare for my employees' transition into NSPS?

A: Upon completion of Performance Management training by your employee(s) the next step is the creation of Job Objectives collaboratively. Developing job objectives will communicate the major work that needs to be accomplished as they are linked to the mission or goals of the organization.

The information below provides a snapshot of each party's responsibility. (For in-depth information on writing job objectives visit

<http://www.cpms.osd.mil/nsps/docs/writingjobobj.pdf>)

Responsibilities Under NSPS Performance Management

Managers and supervisors set expectations, job objectives and associated contributing factors.

They also communicate appropriate work behavior and determine developmental needs.

Employees participate in establishing the performance plan and setting job objectives and contributing factors.

They also assess developmental needs and communicate these needs to their managers or supervisors.

For more information or questions, call the Beale Civilian Personnel office at 634-2234 or Harl Sanderson at 634-2311.

TRICARE information moves under one roof

FALLS CHURCH, Va. - TRICARE beneficiaries may get a surprise the next time they visit TRICARE Online. The Web site has a new name, a new look and a new home. It's now part of <http://www.tricare.mil>, the official Web site for all TRICARE information.

"We reorganized the Web site with our beneficiaries in mind," said Army Maj. General Elder Granger, TRICARE Management Activity deputy director. "Now they can go to one site to look up benefit information, schedule an appointment or track claims. Everything's in one place making the site easier to use."

The TRICARE Web site comprises five main content areas:

- * My Health (TRICARE Online) - personal health information and online appointment scheduling for TRICARE Prime enrollees
- My Benefit - TRICARE bene-

fit information

- * MHS Staff - resources for Military Health System staff members

- * TRICARE Providers - information for TRICARE network providers

- * Pressroom - the latest news about TRICARE and the military health system

In the next phase of Web site improvements, beneficiaries will be able to enter their profile and receive benefit information tailored to them.

TRICARE expects this feature to be available winter 2007.

About TRICARE Management Activity

TRICARE Management Activity, the Defense Department agency that administers the health care plan for the uniformed services, retirees and their families, serves more than 9.2 million eligible beneficiaries worldwide.

*Sweat and tears:***Beale Airman named ACC Female Athlete of the Year**

By Airman 1st Class
George Cloutier
9th RW Public Affairs

One of Team Beale's own junior officers recently earned the title of Air Combat Command Female Athlete of the Year.

1st Lt. Holly Borowski, maintenance officer for the 9th Aircraft Maintenance Squadron, earned the title of ACC Female Athlete of the Year for her outstanding performance as a professional cyclist.

"I actually didn't really know about the ACC title," Lieutenant Borowski said. "I got a call from the athletic director here and he said the base wanted to nominate me for athlete of the year."

After being nominated for the title, the lieutenant's athletic portfolio went up against one other nominee from every base in ACC. Though the competition was fierce, it was not the lieutenant's first experience with competition.

"I was seven when I started competitive swimming," the lieutenant said. "I swam all through high school and two years in college at the Air Force Academy. I wasn't really a natural great swimmer or anything though. I did what I could and was barely scraping by."

That was when she decided to take a turn in her athletic career.

"I had a friend on the cycling team at the Air Force Academy," she said. "He really got me into it. The girls on the team really took me in and were excited to have another girl."

Though she had some difficulty at first, by her second year on the cycling team the successes were starting to shine through.

"I had some really good success that year, enough wins to make over all top place in the conference series," she said.

After graduating from the academy, the lieutenant kept her aspirations of competing with the best and went on to compete in the Olympic trials for the Armed Forces team.

"I went that year to the elite nationals, which was also the Olympic trials," she said. "I finished somewhere right about in the middle."

Though she hadn't qualified for

the Olympics yet, that goal stuck with her as she pressed on ever further.

"My goal is to make the Olympics in 2008," the lieutenant said. "I applied for the world class athlete program for cycling. It's a PCS into Air Force sports, with the final goal of making the Olympic team."

While her aspirations of making the Olympic team are very high, it's also a very possible goal, according to the lieutenant.

"From here, it's a pretty long shot, but a realistic long shot," she said. "A few years ago I wouldn't think I would be this far."

Though the road has been long and hard at times, the lieutenant said she has also had her share of support from friends and family.

"There are a lot of people I can think of over the years who have been an influence to me," she said. "One of the people who really come to mind is my dad. He's a triathlete in his 60s now, and he's still running."

Aside from her family, some of her biggest supporters are her teammates, who understand the challenges of being a professional athlete and holding a full-time job, according to the lieutenant.

"There's a limit when you work a full-time job," she said. "A lot of the competition on the national circuit is full-time athletes. You can go pretty far training and working at the same time though."

Although being in the Air Force presents a challenge when it comes to trying to be a professional athlete, it can also be a source of inspiration, according to the lieutenant.

"Since I've been in the Air Force, there have been a lot of things that I feel that have been instilled in me," the lieutenant said. "These values do make a difference during competitions."

One benefit to her career as a professional athlete, according to the lieutenant, is that the Air Force recognizes people who have personal goals such as her own.

"Having goals is the same whether it's sports, music, or whatever your dreams are," she said. "I just think it's cool to be recognized on what's important to me. It's nice to know that my effort matters to other people." ✈

Speeding endangers lives, careers

By Airman 1st Class George Cloutier
9th RW Public Affairs

Regardless of where, or how fast, all exceptions and excuses aside, it's all speeding, and it's all illegal.

That's the basic message every driver gets when going through driver's education.

Unfortunately, some Beale drivers are forgetting that speed limits aren't just a suggestion, they're the law.

"We have had 371 speeding citations this year since Jan.1," said Staff Sgt. Louis Harrison, 9th Security Forces Squadron NCO-in-charge of Police Services.

Drivers need to heed posted speed limits not just because they are the law, but also because of the dangers caused by excessive speed, according to Sergeant Harrison.

"Any time we have someone speeding it creates a greater danger in the case of an accident," Sergeant Harrison said.

The higher the driver's speed, the more the chance there is of loss of life or injury.

With some roads on Beale reaching speed limits of up to 50 MPH and the winter season imposing various driving hazards such as fog and rain, the risk for injury or death increases even more when drivers start surpassing the posted speed limit for reasons such as being late to work or an appointment.

"If you're late to work or an appointment, going ten MPH over the speed limit isn't going to do anything but shave a few seconds off your total commute time, not minutes," Sergeant Harrison said.

Not only is speeding ineffective, but also dangerous to pedestrians, especially children in base housing.

Whether the kids are going to or from school, or just out playing with friends, it's important for drivers to know there are young lives at stake, according to Lt. Col. Michael Glaccum, 9th Reconnaissance Wing safety

office chief of safety

"I've got three small kids and they like to play on the side walks and ride their bikes in housing," said Colonel Glaccum.

One of the reasons people enjoy living in base housing is because they live in an environment where people are expected to follow the rules, according to Colonel Glaccum.

One of the rules that have recently changed is the reduction of the speed limit in the housing area to 15 MPH.

The problem with exceeding speed limits in residential areas, is the reduction of critical reaction time that could save a child's life, according to Sergeant Harrison.

Though it's a simple rule, some people still have difficulty following it, according to Colonel Glaccum.

"We're in the military, we understand how to follow the rules," the colonel said.

"With our current deployment and operations tempo, there are only so

many 9th SFS patrols on base at any given time," said Maj. Frank Howard, 9th SFS commander. "We can't be everywhere all the time, so we need the assistance of the base populace when it comes to enforcing the current traffic laws."

If you see anyone speeding, or have a concern over speeding in any particular section of the base, over any part of the day, let us know so we can step up enforcement efforts in those areas, according to Major Howard.

"One measure that helps us deter speeding is the use of portable RADAR signs; we currently have one unit on hand and another will be in service shortly," Major Howard said. "With these tools, along with our patrols and with inputs from our base residents, we hope to make Beale a more safe and secure environment."

For more information or questions, call the 9th SFS law enforcement desk at 634-2131. ✈

DRIVE SAFE from page 1

according to Sergeant Pratt.

The following are helpful tips to prepare for winter driving conditions.

- * Make sure brakes, windshield wipers, defroster, heater and exhaust system are in top condition.

- * Check antifreeze and be ready for colder temperature. Adding special solvent to windshield washer reservoir to prevent ice from forming.

- * Check tires. Make sure they are properly inflated and the tread is in good condition.

- * Always carry chains. Make sure they are the proper size for the tires and are in working order.

- * Carry a flashlight and chain repair links.

- * Chains must be installed on the drive wheels.

- * Know if the vehicle is front or rear wheel drive.

- * Other suggested items to carry in the car are: an ice scraper or commercial deicer, a broom for brushing off snow, a shovel to free the car if it is "snowed in", sand or burlap for traction if the wheels should become mired

in snow and an old towel to clean hands.

- * It is also a good idea to take along water, food, warm blankets and extra clothing.

- * A lengthy delay will make one glad to have them.

- * Weather conditions may warrant detouring traffic from the main roadway. It is strongly suggested that drivers always keep an updated map containing the areas of travel.

- * If you have a cellular telephone, pre-load the CalTrans Highway Information Network phone numbers 800.427.7623 or 916.445.7623 for convenient, updated road conditions.

- * Keep a spare key somewhere outside the vehicle.

- * A number of motorists have locked themselves out of their cars when putting on chains and at ski areas.

- * Here's a basic list of essential tools and supplies to keep in the car in case of roadside emergencies: spare tire, vehicle Jack, a 1 or 2-foot square piece of 1/2-inch plywood to support the vehi-

As the first rains of winter fall on Beale, with snow soon to come in the local area, drivers are reminded that the ideal driving conditions of summer are gone and preparing for these adverse weather conditions is a must. (Photo by John Schwab)

cle jack, wheel chocks, flares or reflective triangles, flashlight with extra batteries, gloves and coveralls, ice scraper, jumper cables, one quart of motor oil, one gallon of fresh water, first aid kit, small shovel, tire pres-

sure gauge, duct tape, a small tool kit containing assorted open-end and box wrenches, adjustable wrenches, screwdrivers, pliers and a socket set.

Get Ready - Set - BAKE!

On November 14th, 2006, the **Community Center** will be hosting its 2006 Beale Bake-Off starting at 6:00 pm. This year's categories include appetizers, salads, breads, main dishes, side dishes, and everyone's favorite - dessert! Participants may enter as many categories and recipes as they want - the more the better. Enough food must be made to serve at least 40 small samples. Last year the Beale Bake-Off had 14 delectable entries that included dishes such as Mushroom-Stuff Cornish Hens, Orange Kiss-Me Cake, Pizza Dip Appetizer, and Choco-Nut Carmel Surprises. This year the Community Center is challenging the members of Beale to "bring it on" and bring out their best!

Entries will be judged by three highly skilled food connoisseurs as well as anyone who chooses to participate in the "People's Choice" Award. Judges will grade each dish on the following criteria: flavor, appearance, texture, and creativity. Bottom line - if you're hungry - good eating is to be had!

All entries must be pre-registered and brought to the Community Center before the event begins at 6:00 pm. All participants must submit a 3x5 index card of the ingredients and cooking instructions. All recipes will be submitted into the Annual Best of Beale Bake-Off Cookbook for all to enjoy!

For more information, contact the Community Center at 634-3165.

Ladies and Gentleman get out those mixing bowls, chef's hats, and your top secret recipes because it is time for the Annual Beale Bake-off.

OAC offers Northern Valley winery & historic town of Murphy's tour

Grab a bunch of your friends November 19th for a trip to an excellent Northern Valley Winery and a stop at the Historic town of Murphy's. You will board the bus at the **Outdoor Adventure Center** at 7:30 am and return to Beale at 8:30 pm.

The quaint historic town of Murphy's is located in the Northern Valley of Calaveras County and renowned for producing some of the finest premium grapes and award-winning wines in the world. You will tour the beautiful grounds of Ironstone Vineyards, be treated to wine tasting, and visit the museum which is home to the largest Crystalline Gold Leaf specimen in the world, weighing forty-four pounds. You will then be dropped off in historic downtown Murphy's where you can visit any of the numerous wineries, stop for lunch or just stroll through the festively decorated streets and shops. Best of all, most wine-tasting is FREE. This is a must do on any holiday agenda!

The cost is only \$20 for transportation and you must sign up no later than November 16th. Recommended age for this trip is 21 and up, but all ages are welcome. Call OAC today at **634-2054** for reservations.

San Francisco pre-holiday trip

On November 18th the **Outdoor Adventure Center** has scheduled an Union Square pre-holiday shopping trip from 7:00 am until 9:00 pm.

Santa Claus needs help filling his sled for the big day and Union Square is the perfect place to do just that! Tiffany's, Gucci, Versace and The Disney Store and more are among just a few of the spectacular shops adorned in their holiday finest in this world-famous shopping area. You may also choose to

stop by one of the many award-winning restaurants or sidewalk cafes. Brave the public transportation and venture deeper into the city or ride the famous cable cars to a one of a kind specialty shop. Why not make your holiday shopping extravaganza a festive day to remember?

This trip is open to all ages and the cost is \$25 per person. For more information contact the OAC at **634-2054**. Hurry, the deadline to sign up is November 15th!
